📍 Nagpur, India

SUMMARY

Currently enrolled in pursuit of a Bachelor's degree in Computer Engineering, I am seeking to leverage academic knowledge and practical skills to contribute to the dynamic and evolving IT industry. Committed to continuous learning and professional development, I aim to enhance my expertise while making meaningful contributions to innovative projects within the field.

EDUCATION

B. Tech in Computer Engineering

St. Vincent Pallotti College of Engineering & Technology

📅 12/2021 - 07/2024 📍 Nagpur

Diploma in Computer Engineering

Bajaj Chandrapur Polytechnic Chandrapur

📅 07/2019 - 10/2021 📍 Chandrapur

PROJECTS

College Recommendation System

📅 10/2023 📍 Nagpur

Summary

- Led the development of a web application project with a database, centered around implementing Machine Learning algorithms. The project's core objective is to provide personalized college recommendations based on robust data analysis. Through this initiative, I honed skills in web application design, database management, and the integration of machine learning techniques to deliver effective solutions in the educational domain.

Online Auction Platform

📅 04/2023 📍 Location

Summary

- Executed a web application project focusing on database management, utilizing XAAP server technology in conjunction with JavaScript and PHP programming languages. Demonstrated proficiency in designing, developing, and optimizing database systems to enhance overall project functionality and user experience. Acquired hands-on experience in the integration of server-side technologies to ensure seamless web application performance.

CERTIFICATES

NPTEL Online Certification in Introduction to IOT

IIT Kharagpur

📅 2023 - 04/2023

Complete Machine Learning With R Studio -ML for 2023
